

SweeDeePie Cheesecakes LLC began as a personal challenge. We were attending an annual family Christmas dinner and were treated to a sweet potato cheesecake in a pie shell. Neither one of us had ever cooked a cheesecake before, but we fell in love with the cake and set about creating our own. We made several rejects, but we were eventually successful. We carried our layered sweet potato cheesecake the next Christmas dinner and the rest is history.

We began to create other flavors from our own ideas and from the ideas of others. We take great care to make all of our cakes by hand. The rich creamy gourmet tastes evolves from the best ingredients. With a dessert as good as our cheesecakes, we needed a name that was unique and descriptive. We began with the "sweet Potato" in a "pie shell". Our granddaughter called me "Granddaddy Sweetie", thus the name "SweeDeePie Cheesecakes".
